# Our 2022

Another year has flown by and these difficult times do not admit any slowdown in pace.

Another year has been frantic, incomprehensible, uncontrollable. But it seems the world is getting used to a constant, new normality – an everlasting one, changing on a daily basis.

During this almost two-year storm Grabo has stretched, grown, consolidated.

The rise stretched in many directions. Notwithstanding we feel the most successful part of Grabo's journey has been the consolidation of its reliability.

During a struggling period, when the surge in demand for balloons met its most complicated times, with the decrease of offering, Grabo lived, produced, delivered.

Not only did it deliver – thanks to our worldwide partners, in every continent, in every country, the rise has been unstoppable. Grabo is now the most successful foil balloon brand in the world, the professional's choice, the cornerstone of any balloon centered business.

### ***This is our greatest pride.***

We believe that being at this point is the result of multiple factors. We continue engaging with our partners with the same enthusiasm we started off with, as if we were always in love like the first day.

We continue producing new collections, trendy colours, innovative ideas.

This year Grabo introduces an organic inspired feel, a hymn to nature, a caress in the face of tenderness. The flowery, soothing, atmosphere we would like to put the spotlight on is the Nemesis of an enraged, period, subtle and wicked.

The need we have to bring back some positive thinking, closeness to nature, is key in the development of our artistic idea.

This is foreseeable in the new line of numbers, the Cream and Nude, which will be the new benchmark colours for the years to come; it is visible in the new lines of Satin colours, Nude, Cream, Olive Green, Chocolate, Caramel,

Pastel Pink, Pastel Blue.

These will be trend setters for the coming period and the focus any stylish party.

On top of that we tried to delight our partners with new popular designs such as the Gin & Tonic coordinated designs, the colourful Halloween designs, the new and ever popular cat princess in black and in white, the new Betallic milestone range designs, and many more from your eyes to see.

We cannot speak in general, but we know for sure it is going to be another great year with balloons and Grabo will continue enhancing service, quality, styles.

Stay tuned. The best is yet to come.

### **The Relationship with Betallic**

For over two decades, **Betallic & GRABO** have worked beautifully together. Innovative design and cutting edge technology are the hallmarks of this relationship. Through constant collaboration, together we have enriched the world with thousands of balloons celebrating every occasion and life moment.
